OCTOBER 25 -
NOVEMBER 2, 1976
-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of November 4, 1976 (based on reports from exporters for the week ending October 24, unless otherwise noted):

Wheat: Business was slow in the wheat market as sales activity was one of the slowest so far this season and weekly exports totaled only slightly over 550,000 metric tons (MT). A significant portion of the reported activity was the assignment of destinations to sales which had earlier been reported to unknown destinations. Reports under the daily system contained two important wheat transactions. An optional origin sale of around 100,000 MT of Western White wheat was made to Iran for delivery during the 1976/77 marketing year (MY). In addition, over 220,000 MT of Hard Winter, originally sold to the USSR for delivery in the 1977/78 MY, was switched into the current MY.

Corn: The corn market was active, however, total sales for the 1976/77 MY increased by only 524,000 MT as a 225,000 MT sale to Romania previously reported under the daily system was shifted to 1977/78. New sales, destination changes and other sales contract adjustments were numerous, resulting in increases in total sales to the EC of 558,700 MT, other Western Europe -- 143,700 MT, Japan -- 126,500 MT, Mexico -- 55,700 MT, and Canada -- 82,300 MT. (Excluding Romania, East Europe showed a 98,300 MT increase in total sales.) Norway's purchase of 22,400 MT represented their first corn purchase during the second year of their 3 year commodity supply agreement. Under the daily system, exporters reported the sale of nearly 102,000 MT of corn to Spain for 1976/77 shipment. Sales to the USSR declined by around 22,000 MT reflecting seller's contract adjustments. Exports continued heavy, totaling in excess of a million MT for the second consecutive week.

Grain Sorghum: Japan continued active in the market accounting for well over half the weekly sales activity, most of which was a switch from unknown destinations. Norway's purchase of 31,900 MT represented their first purchase during the second year of their 3 year commodity supply agreement. Exports picked up from the preceding week's low level but were still well below other recent weeks.

Barley: Interest in barley continued active with Belgium (40,600 MT) and Japan (14,000 MT) the major customers. Over 15,000 MT, which had earlier been reported as sales to West Germany, were switched back into unknown. Total sales so far this MY account for over 90% of the USDA export projection.

Rice: Activity was slow featuring the assignment of Iran as the destination for 15,000 MT of long grain sales, earlier reported to unknown destinations, and the additional sale and shipment of a small quantity of PL-480 medium grain rice to Indonesia.

Soybeans: Sales activity was modest with total sales rising by 352,600 MT. The EC accounted for roughly two-thirds of the increase. Exports were heavy for the second consecutive week with Japan and the EC the principal destinations. Total sales (7,035,000 MT) currently comprise about 49% of the USDA projection for the 1976/77 marketing year.

Cotton, Oats, and Soybean Oil, Cake and Meal: Showed no significant activity.
